# TUHIN ROY

**Full Stack Software Engineer | MERN & PERN Stack | React.js, Next.js,Node Js & React Native**

Kolkata, West Bengal | +91-6290450030 | tuhinroyand@gmail.com | portfolio: tuhin-roy.vercel.app | LinkedIn | GitHub

## CORE TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, React Native, Redux, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, Responsive Web Design, Reusable Component Architecture, State Management, UI Performance Optimization
- **Backend:** Node.js, Express.js, REST API Design, Authentication & Authorization, Role Based Access Control (RBAC), MongoDB, PostgreSQL, SQL, Redis,RabbitMQ, Stripe Payment Integration, Business Logic Implementation
- **AI, CMS Tools:** OpenAI API, AI Chatbot Integration, Git, GitHub, Firebase Auth, Supabase, Vercel, Netlify, Render, Hostinger

## PROFESSIONAL EXPERIENCE

**Software Developer** | B3NET Technologies Private Limited *Dec 2025 – Sep 2026*

- Developed and maintained corporate websites using Next.js, React.js, JavaScript, TypeScript, and WordPress Headless CMS, building RESTful API integrations, responsive UI, and reusable components to improve delivery speed and maintainability.
- Built a cross-platform React Native application (TypeScript, Node.js, MongoDB, REST APIs) integrating OpenAI to generate interview questions, evaluate answers, and deliver automated corrections and personalized feedback to users.
- Integrated the ChatGPT API into a management and marketing web application, delivering an AI-powered chatbot that automated user assistance and reduced manual support workload.
- Contributed to a full-stack School Management CRM (React.js, Node.js, TypeScript, PostgreSQL), implementing administration modules, user management, REST APIs, and database operations.

**Software Developer** | Albatross Software Services Private Limited *Dec 2024 – Jul 2025*

- Enhanced a web-based filing and document management platform for the Companies Office of Jamaica (COJ), supporting annual returns, document uploads, application tracking, and digital filing workflows for government and corporate users.

**Software Developer** | Exicube App Solution (OPC) Private Limited *Sep 2023 – Nov 2024*

- Developed web and mobile applications using React Native, React.js, JavaScript, and TypeScript for taxi booking, service booking, and delivery platforms used by end customers and service providers.
- Implemented responsive UI, reusable components, REST API integration, state management, and performance optimization across multiple production applications.

## PERSONAL PROJECTS

**Yuno** | Multi-Tenant Project Management SaaS

- Built a multi-tenant SaaS platform for organizations, departments, and projects with role-based access control, employee management, task tracking, Kanban boards, and automated email notifications.

***Technologies:*** *React.js, Node.js, Express.js, MongoDB, Redis, RabbitMQ*

**Zenvy Admin Dashboard** | Full-Stack E-Commerce Admin Panel

- Developed an admin platform for managing products, categories, inventory, customers, and orders, featuring sales analytics, promotional campaigns, push notifications, and a responsive light/dark mode UI.

***Technologies:*** *React.js, Node.js, Express.js, PostgreSQL, Redis, RabbitMQ*

**Zenvy** | Full-Stack E-Commerce Application

- Built an e-commerce platform with a responsive storefront, product and inventory management, secure authentication, order processing, Stripe payment integration, and a dedicated admin dashboard.

***Technologies:*** *Next.js, Node.js, Express.js, PostgreSQL, Redis, RabbitMQ, Stripe*

## EDUCATION

**Master of Computer Applications (MCA)** — Brainware University

*Sep 2021 – Jul 2023* | *Score: 90.88%*

**Bachelor of Commerce (B.Com)** — Prafulla Chandra College (City College)

*Aug 2018 – Nov 2021* | *Score: 61.15%*
