PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience building responsive web and mobile applications using React.js, Next.js, React Native, Node.js, Express.js, TypeScript, JavaScript, MongoDB and PostgreSQL. Experienced in frontend development, full-stack/MERN development, RESTful APIs, API integration, state management, authentication, authorization, performance optimization, reusable components, responsive UI, database operations and AI API integration.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3
Frontend: React.js, Next.js, React Native, Redux, Responsive UI, Reusable Components, State Management, Performance Optimization
Backend: Node.js, Express.js, RESTful APIs, API Integration, Business Logic, Authentication, Authorization
Databases: MongoDB, PostgreSQL, SQL, Redis
Messaging & Payments: RabbitMQ, Stripe
CMS & AI: WordPress Headless CMS, OpenAI API, ChatGPT API, AI Chatbot Integration
Tools & Deployment: Git, GitHub, Firebase Auth, Supabase, Render, Netlify, Hostinger
Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

PROFESSIONAL EXPERIENCE

Software Developer | B3NET Technologies Private Limited | Dec 2025 - Sep 2026

- Developed and maintained corporate websites using Next.js, React.js, JavaScript, TypeScript, WordPress Headless CMS, RESTful APIs, responsive UI and reusable components.
- Built a React Native mobile application using TypeScript, Node.js, MongoDB, REST APIs and OpenAI API integration for AI-generated interview questions, answer evaluation, corrections and personalized feedback.
- Developed a web application for management and marketing workflows and integrated the ChatGPT API to implement an AI-powered chatbot for automated user assistance.
- Contributed to a full-stack School Management CRM using React.js, Node.js, TypeScript and PostgreSQL, implementing school administration, user management, backend APIs, database operations and business logic.

Software Developer | Albatross Software Services Private Limited | Dec 2024 - Jul 2025

- Developed and enhanced a web-based filing and document management platform for the Companies Office of Jamaica (COJ), supporting annual returns, document uploads, application tracking and digital filing workflows with responsive UI, usability and process automation.

Software Developer | Exicube App Solution (OPC) Private Limited | Sep 2023 - Nov 2024

- Developed and maintained web and mobile applications using React Native, React.js, JavaScript and TypeScript for taxi booking, service booking and delivery platforms.
- Implemented responsive UI, reusable components, RESTful API integration, state management, performance optimization and client-specific features across production applications.

PERSONAL PROJECTS

Full-Stack E-Commerce Platform & Admin Panel

- Building a scalable full-stack/MERN stack e-commerce application using Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, Redis, RabbitMQ, Stripe, Shadcn UI and Zod.
- Developing RESTful APIs, authentication, authorization, database management, caching, asynchronous processing, payment integration and responsive admin dashboards with focus on performance, scalability, security and maintainable architecture.

Social Network Web Application (Vibe) | https://vibe-binary-network.netlify.app

- Built a full-stack social media application with posts, likes, comments, friend requests, stories, email verification, secure authentication, Redux state management, RESTful APIs and PostgreSQL database integration.

E-commerce Web Application (Baazaaar) | https://baazaaar.netlify.app

- Built a MERN stack e-commerce application with product listings, shopping cart, infinite scrolling, favorites, multi-item orders, secure authentication, RESTful APIs and Stripe payment integration.
- Technologies: React.js, Node.js, Express.js, MongoDB, Redux, Stripe, HTTP-only Cookies, REST APIs.

EDUCATION

Master of Computer Applications (MCA), Brainware University | Sep 2021 - Jul 2023 | Score: 90.88%

Bachelor of Commerce (B.Com), Prafulla Chandra College (City College) | Aug 2018 - Nov 2021 | Score: 61.15%
